BELLOT

WARNING

1. If you are a first time hand gun purchaser it is mandatory that you take a firearms safety and handling course for hand-guns before you use this pistol.
2. Never carry a single action derringer (Models 1, 4, 6, 7, 10, 11, L.D., AD, and TX) with the hammer (firing Pin) resting on a loaded cartridge or in the full cocked position. If you drop any single action pistol with the hammer down on a loaded shell it can fire. Always carry it in the half cock position with the safety engaged!!! This applies to all double barrel single action derringers.
3. Always read instructions before using. Do not load your gun until you are ready to use it.
4. All firearms are dangerous weapons. They are not fool proof consumer products or toys and must be kept out of the hands of children.
5. All of our derringers are short range defense weapons and/or collector's items. They are not target pistols! It is your responsibility to select the pistol best suited for your needs. If you have questions, please feel free to contact the factory.
6. All rimless cartridges DO NOT come with Extractors! Exceptions are DA models. Calibers include: .45 Auto, 9mm, .223 Rem. and 40 S&W.
